

Justification of Label Location

Regarding: Label Location of EF0810, FCC ID: 2AJIV-EF0810

We, CREATIVE LABS PTE. LTD., hereby verify that the label of the equipment will not be visible at the time of purchase on the exterior of the equipment enclosure. Per KDB 784748 D01 Labelling Part 15 & 18 Guidelines v08, we adopt an alternative option to placing the FCC label on the device, all requirements as below are met:

	Requirements	Justification
1	The device is handheld;	It's a headphone, could be handheld when not in use.
2	The FCC identifier is visible at the time of purchase. The FCC ID on the box, or additional documentation directing the user where to find the FCC label, also satisfies this requirement;	Instruction to user where to find the FCC label is properly addressed in the User Manual.
3	The user accessible area must not require any special tools for access, and the FCC label must not be placed on a removable part;	It's on the internal side of the earcup which is covered by the cushion, and the cushion could be easily removed without any special tools or efforts meanwhile could be put on easily.

Though KDB 784748 V08 has been replaced by V09r01, FCC OET has confirmed the continuing invalidation of this alternative label location proposed in previous version of this KDB via inquiry.
